VOXHEART – Heart Disease Report

AI Explanation:

Unable to generate explanation: You exceeded your limit.

Your cholesterol is mildly elevated; reduce intake.

High glucose levels; monitor for pre-diabetes.

Overweight: Aim for 5-10% body weight loss.

Smoking increases heart risk; seek a quitline.

Limit alcohol: no more than 1 drink/day (women) or 2 (men).

Try 30 min brisk walking at least 5 days a week.

Annual cardiovascular screenings are recommended.

Insurance and billing details.
